

CONNECTING TO THE LUSKIN RDS (REMOTE DESKTOP) SERVICE

(LUSKIN STUDENTS ONLY (UP,PP,SW))

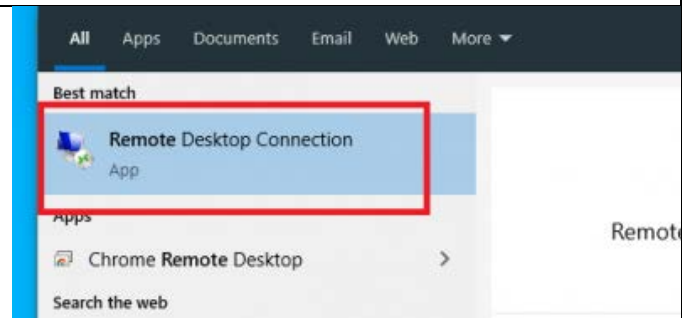

STEP 1 - DO THIS FIRST - UCLA VPN CONNECTION:

Before you can connect to Lusklin Remote Desktop, **make sure you are connected to the UCLA VPN Service** using Cisco AnyConnect software. **Lusklin Remote Desktop will not work without being connected to the UCLA VPN Service.** Please download and install the Cisco AnyConnect Client for [Windows](https://www.it.ucla.edu/it-support-center) from the UCLA IT Support Center <https://www.it.ucla.edu/it-support-center>

WINDOWS CONNECTION FOR LUSKIN RDS

Windows:

- Launch Remote Desktop Connection, by clicking on Start, then typing in "Remote Desktop".
- Click on the Remote Desktop Connection App.

Type in the computer name:

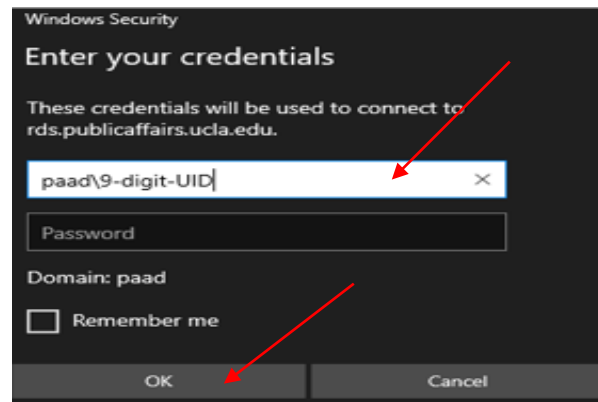

- "rds.publicaffairs.ucla.edu".
- Click **Connect**.
- **If your connection fails, ensure you have the UCLA VPN connected (STEP 1)**

When prompted for a username/password:

- Username: PAAD\9-DIGIT-UID
- Password: Your Lusklin Lab Password
- Click OK

(You can click "remember me" if you want the system to remember your credentials)

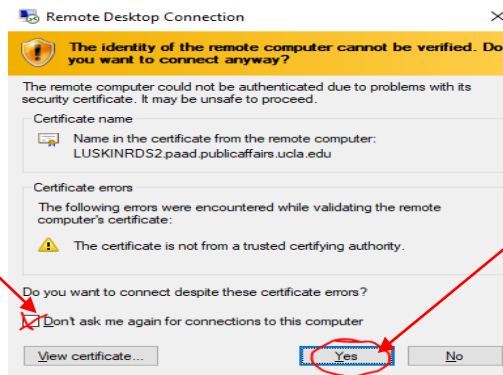

If you have any questions please email: ITSupport@luskin.ucla.edu

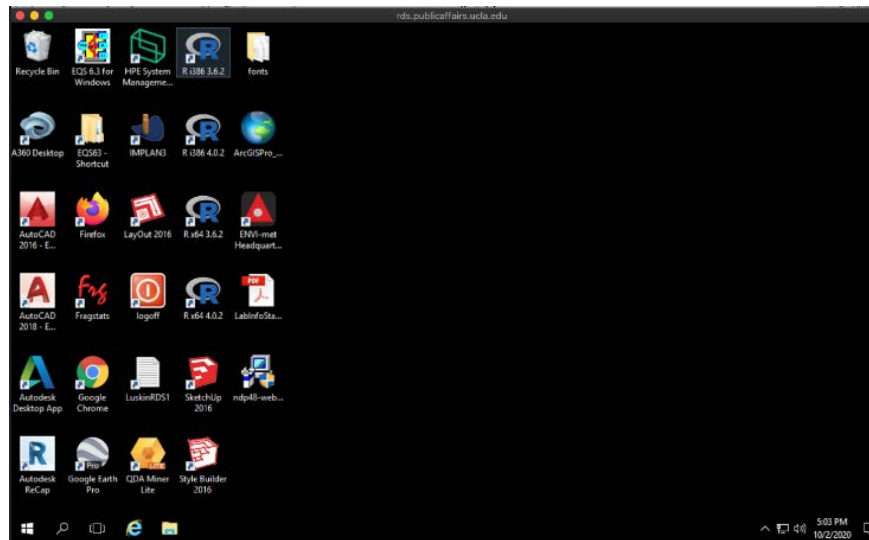

CONNECTING TO THE LUSKIN RDS (REMOTE DESKTOP) SERVICE (LUSKIN STUDENTS ONLY (UP,PP,SW))

- You will get a certificate screen:
- Click “Don’t ask me again...”
- Click “Yes”

Your remote desktop connection will connect to a windows session with the needed apps.

You are now connected to the Luskin RDS Session

If you have any questions please email: ITSupport@luskin.ucla.edu
