Mission, Value, Vision, and Goals

Mission

Located within the world's top public university and the interdisciplinary Luskin School of Public Affairs, Social Welfare at UCLA leads in the pursuit of social and economic justice, the improvement of health and mental health across the lifespan, and the advancement of child and family well-being. We demonstrate our commitment to this mission by educating leaders and change agents to tackle society's most pressing social issues, producing knowledge to inform social policy and practice, and partnering with communities and agencies in Los Angeles and across the globe. Our program is ranked #9 in the nation by US News and World Reports (2022).

Vision

Social Welfare at UCLA Luskin advances knowledge, practice, and policy for a just and equitable society.

Values

- Community Collaboration and Partners
- Equity, Access, and Social Justice
- Excellence in Research and Scholarship
- Distinction in Teaching and Mentorship

Goals

- 1) Produce knowledge for local and global impact
- 2) Reimagine social work for the 21st century
- 3) Build equitable and sustainable community partnerships
- 4) Educate for effective leadership and advocacy
- 5) Create and inclusive and accessible program

Luskin Social Welfare Strategic Plan

Incoming Student Checklist

The following tasks should be completed as early as possible in September. Deadlines are in bold or underlined.)

Activate your UCLA Logon ID and Password

To set up your username and password go to this [site](#). If you are a returning Bruin, the UCLA Logon ID used to be called a Bruin OnLine ID or BOLid.

Update Contact Information

Email is the preferred method of communication for both faculty and staff. Please make sure that your current e-mail address is on file with MyUCLA, IPT, the Director of Student Services, and that you check your messages daily. Your email for MyUCLA, IPT and the Director of Student Services should all be the same.

Register for Fall Classes

Immunization Clearance (to be completed by September 7th)

Luskin Social Welfare requires that every student obtain a health clearance in order to protect both the student and his/her clients from infection. Some placements require students to have their health clearance requirements taken care of before they begin their internship – this means all vaccinations, including the first two installments of the Hepatitis B vaccine (which is administered in three separate shots over a six month period). **Therefore, it is advisable that students begin receiving their vaccinations immediately. Students who fail to get health clearances will have holds placed on their records and will not be allowed to enroll in winter classes.**

The Arthur Ashe Student Health and Wellness Center has set up an online Immunization Requirement Assessment process.

How to comply with the UC Immunization Requirements:

- 1) Submit your Statement of Intent to Register SIR/SLR.
- 2) Please allow 2 business days after submitting your SIR/SLR before attempting to access the Ashe Patient Portal.
- 3) Be prepared! Gather all of the info you'll need to complete your requirements online.
- 4) Go to the UCLA Immunization Requirements website and sign in to the Ashe Patient Portal.
- 5) Once you are logged in, from Home page, click "Complete My Immunization Requirement."
- 6) Enter all of the requested dates and immunization information.
- 7) Upload images or PDF files of your immunization records, laboratory tests, and/or chest x-ray by clicking on the Immunization Document upload tab.

- 8) You can check your compliance status from the Patient Portal by selecting Medical Clearances.

Access the [Ashe Patient Portal](#). Once you have accessed the link, please click on the link that says Social Welfare Student Requirements.

Students may get their vaccinations through the Arthur Ashe Student Health and Wellness Center (<http://www.studenthealth.ucla.edu/>) or through their personal physicians. If not getting vaccinations directly through the Ashe Center, students must provide documentation to the Ashe Center from their physicians and may be required to take certain blood tests to prove immunity.

***NEW – Effective Fall 2022, the COVID-19 and Influenza vaccines are now required for all UCLA students.**

Reliable Transportation

All students must have reliable transportation, not only to attend classes but as a requirement for your field placement. Some field placements may require you to go out into the field or attend meetings outside your agency.

Apply for a Parking Permit

Professional School Students will be able to purchase a parking permit via UCLA Transportation. Due to the limited number of parking allotments available, permits will be dispersed first-come first-serve. Students are encouraged to carpool or take public transportation if possible. Note that parking permits are not effective until the first day of classes. Be prepared to pay for parking (\$14) when you come to orientation or arrange for other transportation. It is nearly impossible to find street parking near campus. We encourage you to obtain a permit or explore other transportation options with the UCLA Parking and Commuter Services Office. Please contact UCLA Transportation with any questions at (310) 794-7433 or via email at pcoordinate@ts.ucla.edu.

PLEASE NOTE: Depending on how often you plan to drive and park on campus, you may find that it is cheaper to use the pay-by-space parking (\$14 a day) than to buy a permit.

Apply for UCLA Housing:

Students wishing to live in University owned housing should apply ASAP as space is in high demand. Go to <http://www.housing.ucla.edu> and click on “My Housing.” This website also has a map and information on off-campus housing.

For those students interested in non-university housing these websites may help:

- **Craigslist** has apartment listings for the Los Angeles area, subdivided by region.
<http://losangeles.craigslist.org/>
- **Westside Rentals** requires a subscription fee but has apartment listings for the

Los Angeles area, searchable by neighborhood. <http://www.westsiderentals.com>

Finalize Financial Aid/Student Loans

Beginning in May the Financial Aid Office will be sending out Financial Aid Notifications (called FANs) and their electronic versions (called eFANs). The FANs will detail your financial aid awards and request that you make any updates. The financial aid office should also provide you with information about commonly used lenders. If you have questions, contact the Financial Aid Office over the summer to avoid headaches in the fall.

To find out who your [Financial Aid counselor](#) is, visit:

<http://www.financialaid.ucla.edu/Contact-Us/Our-Staff#16620621-counseling>

Many students apply for the GradPlus loan to cover living expenses and other costs while they are in school. It is important to be aware that the GradPlus loan takes your credit history into consideration so some students may not qualify for this supplemental loan.

Note: In order to be eligible to receive aid from the Professional Development Fees paid to the University, you must file FAFSA by August 1.

Student Liability Insurance

The Department has purchased student liability [insurance](#) for all registered and enrolled students with a coverage of **\$2,000,000/\$4,000,000**.

Bruin ID

BruinCard appointments are available for incoming Fall 2022 students beginning September 1st.

If you have a question, please Ask BruinCard through the MyUCLA Message Center. Do not reply to the automated appointment confirmation, as the inbox is not monitored.

Pay Your Fees

Quarterly fees are always due just before the quarter starts. Fall fees are due by **September 20**. Winter fees will be due December 20, and Spring Fees will be due March 20. **PLEASE NOTE:** For those of you receiving financial aid, if your financial aid is enough to cover the full cost of your tuition/fees, you do not need to make a payment. Your fees will be paid automatically when your aid is applied to your BAR account. If your e-mail address is current with URSA you should receive e-mail reminder notices. Fees are paid online through MyUCLA. If you have been awarded financial aid, your financial aid disbursements will automatically go into your account (called your BAR account) and any extra funds will be refunded to you a few days later.

Waive Graduate Student Health Insurance Plan (GSHIP)

Only if you currently have your own health insurance

This must be done each quarter – waivers are not applied for a year

All graduate students are automatically enrolled in (and required to pay for) the Graduate Student Health Insurance Plan (called GSHIP) unless they prove they have adequate health insurance through another provider. If you do have your own insurance, be sure to waive your GSHIP enrollment so that you are not charged for insurance you won't need. Students must apply for a [GSHIP waiver](#). Waivers must be submitted by the stated deadline whether or not fees have been paid by that date. Deadlines are strictly enforced. There are no refunds after the deadline. The schedule for waiving GSHIP is as follows: Academic Year, July 1 – September 20.

☐ **Residency Determination (September 1)**

CA Residency determines the assessment of non-resident tuition. After the first year of study, students are encouraged to evaluate their [eligibility for CA residency](#) for tuition purposes. Eligible students must complete the [Residence Petition](#) to be classified as a CA resident for tuition purposes.

MSW Academic Program

Curriculum Overview

The UCLA MSW degree requires a total of 91 academic units taken over a two-year period of full-time study or a three-year period of part-time study. First year foundation courses are required for all students, whereas program attendees have considerable discretion in selecting their advanced year(s) concentration courses, electives, and field placements. UCLA Luskin's MSW program blends theory, leadership, and research with generalist practice and three unique advanced concentrations. We have a commitment to anti-racism and effective practice with diverse populations. Two separate year-long field placements with social work agencies allow our students to actualize what they are learning in the classroom, providing a holistic, integrated experience.

CSWE Accredited Program

Our MSW program is accredited by the Council on Social Work Education. CSWE requires us to assess our learning outcomes annually and to post this information on our [website](#). All MSW students are required to participate in annual learning objective assessments, which take place in the spring quarter. These assessments are anonymous and do not count for any grades, but do provide us with data that we are required to report back to CSWE. For further information, see [2022 Educational Policy and Accreditation Standards](#).

Foundation Curriculum

Our foundation curriculum is comprised of coursework in:

- Foundations of Social Welfare Policy
- Human Behavior in Social Environment: Theoretical Perspectives in Social Work and Social Welfare I/II
- Human Behavior in Social Environment: Critical Self-Awareness and Intergroup Dialogue
- Foundations of Social Work Practice I/II/III
- Social Welfare Research Methods and Applied Statistics in Social Welfare
- Field Practicum

Advanced Curriculum

Our advanced curriculum allows students to participate in year-long research projects and a more specialized field practicum. A choice of concentration is made in the Spring quarter of the first year that determines specialized practice, theory, and policy/leadership coursework in one of three areas:

- Child and Family Well Being
- Health and Mental Health Across the Life Span
- Social and Economic Justice

The **Child and Family Well-Being Area of Concentration** prepares students to recognize and understand the determinants of well-being for children and families within and outside of the family system. In addition, this concentration prepares social work students to intervene utilizing methods that promote child and family functioning in physical, behavioral, affective, social, and cognitive domains. The theoretical and evidence basis for this concentration include knowledge about normative and non-normative developmental trajectories, stressful life transitions, interpersonal processes, and environmental conditions that support the growth, development, and social justice needs of children and families. The curriculum offers multilevel training that builds expertise for intervening at individual, family, community, and policy levels.

Students go on to work in various settings such as public and private welfare agencies, school systems, mental health settings, and health care practice. A social worker in this concentration will be prepared to practice in outpatient clinics; in-home, guardianship, foster care, or group residential settings; community centers; prevention agencies; juvenile courts and justice programs; family and youth service programs; grass-roots advocacy organizations; and local, state, or national policy settings.

Several sub-concentration areas in the department can be completed to complement the Child and Family Well-Being Concentration:

- Credential programs in School Social Work
- Child welfare programs (CalSWEC and LA DCFS)

The **Health and Mental Health Across the Lifespan Area of Concentration** emphasizes expertise in health and mental health across the lifespan through the integration of research and critical thinking, practice, leadership and policy analysis. Drawing from the social determinants of health model, issues of quality of life and longevity are linked to the exacerbation of social and economic disparities. Courses in the concentration examine wellbeing and resilience as well as disease and disability. The practice emphasis is on prevention and behavior change, by means of theoretically driven, empirically tested, culturally tailored and technology-supported interventions. Barriers and obstacles impeding individuals from gaining access to, and using, affordable and personalized services in health, mental health, and social services are analyzed from various perspectives. Students pursue employment in a wide range of health, mental health and substance abuse oriented settings in communities and institutions, including private practice. They can expect to pursue careers in behavior change (individual and group counseling and psychotherapy), case management, administration, policy formulation and analysis, and research and teaching.

The **Social and Economic Justice Area of Concentration** prepares students to promote social justice and equity in a variety of domestic and global social welfare settings through an integrated model of theory, policy advocacy, research, and advanced generalist practice skills. Students will focus on theories of social justice and inequality and methods of coalition building, community development, and policy advocacy in order to address complex and interrelated challenges of race and gender disparities, global and domestic poverty, and criminal and juvenile (in)justice.

Through coursework and field experiences, students can expect to pursue domestic or global careers in community development, voluntary/non-profit sector services, criminal and juvenile justice settings, or in various spheres of policy advocacy and implementation, grassroots organizing, and government agencies. Students will be prepared to work with a variety of populations including people living in poverty, those displaced by homelessness, war, or migration, those who are incarcerated or on probation or parole, and those who have experienced various forms of discrimination and marginalization.

Capstone Project

All MSW students are required to complete a research project as their capstone of the MSW program. Students in dual degree programs who complete a research capstone for their other program project or thesis (MPP, JD, MA) can choose the format of their MSW capstone; research project or comprehensive exam. Students in the MA program who elect to do a comprehensive exam in Asian American Studies are required to complete the MSW research project. Students in the MSW/MPH dual program will complete the MSW research project capstone as the MPH capstone is a comprehensive exam.

First Year MSW Courses

Students who are part of stipend or specialized programs (CalSWEC MHSA, CalSWEC PCW, LA DCFS, LACDMH, GSWEC, SSW) will have additional and, oftentimes, more specific course requirements. Course requirements for these programs to follow.

In their first year, all students are required to take:

- Practicum each quarter: 401A, 401B, 401C
- 3 Courses in Foundations of Social Work Practice I/II/III: 210A, 210B, 210C
- 3 Courses in Human Behavior in Social Environment: 211A, 211B, and 212
- 1 Course in Foundations of Social Welfare Policy: 214A
- 2 Courses in Research Methods and Applied Statistics: 213A and 213B
- 1 Area of Concentration Core (Health and Mental Health Across the Lifespan: 232; Child and Family Well-Being: 242; Social and Economic Justice: 252)

** Students interested in the Mental Health and Public Child Welfare Stipends as well as those interested in the PPSC need to also take 202A.

Second Year MSW Courses

Health and Mental Health Across the Lifespan

- Advanced Practicum each quarter (402A, 402B, 402C)
- 1 Required Advanced Practice Course: Choose 1 course between 231K – Mental Health and 231M – Health
- 1 Elective Advanced Practice Course: Choose 1 or more courses between: 231A – Clinical Practice with Couples and Families; 231F – Cognitive Behavioral Theories and Methods; 231P – Gerontology, 231Q – Psychopharmacology; 231R – Human Sexuality; 251A – Domestic and Sexual Violence
- 1 Required Advanced Policy Course: Choose 1 course between 290K – Mental Health Policy and M290M – Health Policy
- 1 Advanced Policy Elective: Any MSW Advanced Policy course (290 or M290 series)
- Research Capstone I/II/III (260A, 260B, 260C)
- 2 MSW Elective Courses

Child and Family Well-Being

- Advanced Practicum each quarter (402A, 402B, 402C)
- 1 Required Human Behavior and Social Environment Course: 202B – Child and Adolescent Psychopathology
- 1 Required Advanced Practice Course: Choose 1 course between 231A – Family Systems Interventions; 231N – Children Adolescents and Families Practice; 231S – Trauma
- 1 Advanced Policy Elective within the AoC: Choose 1 course between 290N – Public Policy for Children and Youth and 290J – Child Welfare Policy
- 1 Elective: 231E – School Social Work; 231F – Cognitive Behavioral Theories and Methods; 231G – Substance Abuse Intervention; 251A – Domestic and Sexual Violence
- * **Courses outside of AoC must have Departmental permission**
- Research Capstone I/II/III (260A, 260B, 260C)
- 2 MSW Elective Courses

Social and Economic Justice

- Advanced Practicum each quarter (402A, 402B, 402C)
- 1 Required Advanced Practice course within the Social and Economic Justice Area of Concentration: 241J – Community Practice
- 1 Elective Advanced Practice Course (1 required, 2 recommended) from the following: 241E – Leadership, Development and Governance; 241H – Human Services Organizations; 241I – Grant Writing; 241K – Policy Practice; 241L – Practice in Criminal Justice Settings
- 1 Advanced Policy Course within the AoC: Choose 1 course between 290D – Criminal Justice and Mass Incarceration and 290L – Poverty and Inequality in a Global Context
- 1 Elective Advanced Policy Course (1 required; 2 may be chosen) from the following: 290T – Juvenile Justice Policy; 290W – International Social Work; OR a 290 series course to be approved by your advisor
- Research Capstone I/II/III (260A, 260B, 260C)
- 2 MSW Elective Courses
- Outside Course: Highly Recommended – Take at least 1 class outside of the AoC (to be approved by the student’s academic advisor) is *recommended*. We recommend courses addressing economic or racial disparities, gender justice and women’s rights, economic development, criminal justice, or social action/community organizing.

A total of 91 units are required for graduation.

Electives and Stipend Programs

All of the AoCs require MSW students to take elective courses, typically two courses within the Social Welfare Department (see [AoC grids](#) and/or above information) for electives which may be taken outside the department with advisor approval. Outside electives which count towards the degree must be graduate level (numbered 200 and above) and approved by your advisor using this [form](#).

Independent Study is occasionally approved for 4 units of elective credit upon request. Students requesting Independent Study credit must have a faculty mentor and must submit a reading list and course outcomes (final products) to the Director of Student Services for approval **at least three weeks in advance of the quarter**.

Additionally, certain specializations and programs such as CalSWEC PCW, LA DCFS, CalSWEC MHSA, LACDMH, and School Social Work require additional courses. Students are welcome to take more courses than are required if they wish, schedule permitting. Courses for Stipend/Credential Programs are required in conjunction with or in addition to AoC required courses. For combinations of programs, please see the Director of Student Services.

Required Courses for the CalSWEC and LA DCSF Public Child Welfare Stipend Programs	
1 st Year	<ul style="list-style-type: none"> • SW 202A: Adult Psychopathology • SW 203: SW & the Law/CW Law (or it can be taken during Spring of your second year)
2 nd Year	<ul style="list-style-type: none"> • SW 202B: Child/Adolescent Psychopathology • SW 203: Public Child Welfare Integrative Seminar • SW 231A: Family Systems Intervention • SW 231: Advanced Practice (may be filled with AoC required practice course) • SW 231J: Advanced Practice Child Welfare • SW M290J: Child Welfare • Research Capstone Project (SW 260ABC)
<p>In addition to the above requirements, PCW Students are expected to complete their research capstone on a topic related to Public Child Welfare to be presented to PCW Faculty and Students prior to graduation.</p>	

Required Courses for the LACDMH Stipend Program	
1 st Year	<ul style="list-style-type: none"> • SW 202A: Adult Psychopathology
2 nd Year	<ul style="list-style-type: none"> • SW 202B: Child/Adolescent Psychopathology • SW 231A: Family Systems Intervention • SW 231F: Cognitive Behavioral Theories and Methods or SW 231G: Substance Abuse Intervention • SW 231K: Mental Health Practice • SW M290K: Mental Health Policy • Research Capstone Project (SW 260ABC)

Required Courses for the GSWEC Stipend/Hearst Fellowship	
1 st Year	<ul style="list-style-type: none"> • SW 202A: Adult Psychopathology (Recommended)
2 nd Year	<ul style="list-style-type: none"> • SW 231A: Family Systems Intervention (Recommended) • SW 231P: Gerontology (Required for Hearst; Recommended for GSWEC) • SW 290K: Mental Health Policy (Recommended) • Year Long Research Capstone Project (SW 260ABC)

Required Courses for School Social Work Students	
1 st Year	<ul style="list-style-type: none"> • SW 202A: Adult Psychopathology
2 nd Year	<ul style="list-style-type: none"> • SW 203C: Education and the Law • SW 231A: Family Systems Intervention • SW 231E: School Social Work • SW 231F: Cognitive Behavioral Theories and Methods (Recommended) • SW 202B: Child/Adolescent Psychopathology • SW M290N: Public Policy for Children and Youth • Year Long Research Capstone Project (SW 260ABC)

Scheduling

All MSW courses are scheduled on Tuesdays and Thursdays, and you are expected to be available for classes on those days. Due to our fieldwork requirements, the Department is unable to make exceptions to this expectation. Classes are currently scheduled between 8:00 AM and 7:00 PM. Courses usually meet twice per week. There are usually no classes scheduled between 12:15 PM and 2:00 PM, so that seminars, Student Alliance/Caucus meetings, and other events can be held during these times. Field instruction is scheduled for Mondays and Wednesdays all day (8 hours) and Fridays are reserved for additional field education activities (modules, seminars, meetings, etc.). During the second year, Fridays are an additional field day.

	Monday	Tuesday	Wednesday	Thursday	Friday
1 st Year	Field Placement	Classes	Field Placement	Classes	Additional Field Activities
2 nd Year	Field Placement	Classes	Field Placement	Classes	Field Placement

Grades

To receive a Master’s degree, the university requires that you achieve at least a B (3.0) average in all courses taken in graduate status on any UC campus and in all courses applied toward the degree. The University will not confer a degree for students not meeting the minimum 3.0 GPA threshold.

All courses applied to the MSW must be taken for a letter grade with the exception of Social Welfare courses that are only offered on S/U. Additional information regarding academic standing and academic probation can be found in the [Standards and Procedures for Graduate Study](#).

Degree credit cannot be considered for grades below a C. Required courses that a student has earned below a C must be retaken. Failure to maintain good academic standing will result in being placed on academic probation by the Graduate Division.

Academic Probation

Academic probation occurs when a student's cumulative GPA falls below a 3.0 at any point during their course of study and/or if a student's quarterly GPA falls below a 3.0 for two consecutive quarters. Students unable to raise their GPA to above a 3.0 after 3 quarters on academic probation, will be asked to withdraw from the program or will be dismissed by UCLA Graduate Division.

Field Education Grades

If you received a failing grade in your field course, 401ABC or 402ABC, you will be in danger of being dismissed from the MSW program.

Graduate Grades

A	Superior achievement
B	Satisfactorily demonstrated potentiality for professional achievement in field of study
C	Passed the course but did not do work indicative of potentiality for professional achievement in field of study
F	Fail
S	Satisfactory (achievement at grade B level or better)
U	Unsatisfactory

The grades A, B, and C may be modified by a plus (+) or minus (-) suffix. The grades A, B, and S denote satisfactory progress toward the degree. A grade of C may be applied toward graduate degrees unless otherwise prohibited by the program requirements. However, courses in which a grade of C is received must be offset by higher grades in the same term for students to remain in good academic standing. A grade of F yields no unit or course credit.

Grade Assignments

The instructor in charge of a course is responsible for determining the grade of each student in the course. The standards for evaluating student performance are based on the course description as approved by the appropriate course committee.

Incomplete Grades

Incomplete grades are given at the discretion of the individual instructor. Please be aware of the fact that incomplete grades are the single most frequent cause of low grade point averages in the Social Welfare Program. After one quarter, a grade of 'I' (incomplete) automatically becomes an 'F', which counts heavily in the computation of your average. You should make every effort to avoid 'Incompletes' and you should recognize that 'Incompletes' are granted at the professor's discretion, only for good cause and only if a student has made satisfactory progress in a course. If you do receive an 'Incomplete' you should consider carrying a reduced course load or fewer hours of work outside of the University during the following quarter while you complete the

work. The assignment of an incomplete is permanently reflected on your academic record. The resolution of an incomplete is reflected in the quarter all required coursework has been completed.

Grade Complaints

A grade may be appealed, on any reasonable grounds, to the instructor, the chair of the department, and the dean of the division or school.

If the student believes that the instructor has violated the Faculty Code of Conduct by assigning the grade on any basis other than academic work, the matter should first be taken up with the instructor. If the matter is not resolved, the student may seek counsel from the [Office of Ombuds Services](#) or may follow the procedures for the formal filing of charges. If a charge is sustained by the Academic Senate Committees on Charges and on Privilege and Tenure, an ad hoc committee is appointed within two weeks to review the disputed grade, and any warranted change is made within four weeks.

Correction of Grades

All grades, except DR (Deferred Report), I (Incomplete), and IP (In-progress), are final when filed by the instructor in the end-of-term course report. However, the Registrar's Office is authorized to change a final grade (1) on written request of an instructor, provided that a clerical or procedural error is the reason for the change or (2) on written request of the chair of the UCLA Academic Senate in cases where it has been determined by the Committee on Privilege and Tenure that an instructor has assigned a grade on any basis other than academic grounds. No change of grade may be made on the basis of reexamination or, with the exception of the 'I' and 'IP' grades, the completion of additional work. Any grade change request made more than one year after the original filing must be validated for authenticity of the instructor's signature by the department chair. Any grade change request made by an instructor who has left the University must be countersigned by the department chair. All grade changes are recorded on the transcript.

Academic Integrity

Students are expected to uphold academic integrity as outlined by the University. Examples of academic misconduct include, but are not limited to, cheating, plagiarism, and falsification. All academic misconduct will be investigated and may result in sanctions against the student if the student is found to be culpable. Please see the [Student Conduct Code](#) which is published by the [Office of the Dean of Students](#).

When on an examination or other work submitted by a student, the student is suspected of having engaged in plagiarism or otherwise having cheated, the suspected infraction is to be reported to the appropriate administrative officer of the University for consideration of disciplinary proceedings against the student. Until such proceedings, if any, have been completed, the grade DR (Deferred Report) is assigned for that course. If in such disciplinary proceedings it is determined that the student did engage in plagiarism or otherwise cheat, the administrative officer, in addition to imposing discipline, reports back to the instructor of the course involved, the nature of the plagiarism or cheating. In light of that report, the instructor may replace the

grade DR with a final grade that reflects an evaluation of that which may fairly be designated as the student's own achievement in the course as distinguished from any achievement that resulted from plagiarism or cheating.

Note: Any act of academic dishonesty inclusive of field placement professional misconduct may incur sanctions at both the University and departmental levels including suspension and dismissal.

Academic Advising

The Director of Student Services assigns each MSW student to a senate faculty member who will be their academic advisor for the entire program and to a field education faculty liaison who will advise on field related matters for one year. The purpose of the advising process is to assist the students to (a) articulate their professional development objectives; (b) develop an optimal course of study, within the MSW requirements, that meets these objectives; (c) monitor student progress; and (d) respond to academically related issues and devise solutions.

An academic advisor is a member of our senate faculty. The academic advisor meets with groups of 1st and 2nd year advisees separately each fall. These groups are scheduled in advance and students are required to attend. After that group meeting, students are encouraged to reach out to advisors for individual meetings as needed. While advising assignments are made randomly, students are reminded to seek out multiple faculty, teachers, and mentors during their time at UCLA.

Responsibilities of the field education faculty liaison are articulated in the field education section of this guide.

Leave of Absence

In rare cases, a continuing student may wish to request a leave of absence. The University allows a continuing student in good academic standing to submit a "request for leave of absence" form. Time in leave of absence status may not exceed 3 academic quarters. The student must speak with his/her faculty advisor and the graduate advisor before submitting a request. The [leave of absence \(LOA\) form](#) must be filed with the Graduate Division no later than the end of the second week of classes of the quarter during which the leave is to be started. In cases where a leave of absence is requested and filed after the start of the academic quarter, tuition refunds follow the university refund schedule. Under certain circumstances the Department may request that a student receive a 100% refund of that quarter's tuition payment after the start of the quarter.

Course Credit and Waivers

- Course credit for previous work/life experience – Luskin Social Welfare does not grant course credit for previous work experience or life experience. Students **must earn 91 credits** while they are in the MSW program.
- Policy regarding a Graduate Course Waiver – Students who have completed graduate level Research Methods and Statistics courses within the last 3 years, having earned a B or better may request a waiver. To be considered for departmental approval, students must submit a syllabus for the courses taken and a transcript. Course waivers determine competency but do not replace units, all students must still complete a minimum of 91 units for the award of the MSW degree. A brief assessment of research methods and/or statistics may be required, as determined by the research committee.

Advanced Standing Policy

The information that follows applies to students with a CSWE-accredited Bachelor of Social Work (BSW) degree, earned within the past five years.

Students who have obtained a BSW from a CSWE accredited program may wish to apply in order to have some BSW courses approved as meeting content requirements of courses normally required of all first year MSW students. Students whose selected BSW courses meet departmental approval may then register for other courses within or outside the Department-in lieu of these entry-level courses. Students who place out of one or more courses must still earn 91 credits while they are in the MSW program. This means that BSW units do not count towards the 91 units required by UCLA for graduation. See [Standards and Procedures for Graduate Study](#) for the Transfer of Credit policy in effect at UCLA.

Eligible students must provide a transcript demonstrating that they have an overall grade point average of “B,” an average of “B” for their last two years of study, a “B” average in all social work courses, and a “B” in any course to be considered as meeting MSW course requirements. There is no substitution allowed for field placement or the associated hours (401 A/B/C or 402A/B/C).

What foundation courses are eligible for consideration?

Practice Series: 210ABC

Theory Series: 211A

Research methods and statistics: 213AB

Social Welfare Policy: 214A

Students may opt not to apply for course substitution. A review committee, comprised of one faculty member from each Curriculum Planning Group, will evaluate the materials submitted and

determine if the applicant has satisfied the MSW first year requirement by virtue of their BSW degree and course work.

Substitutions – Students may propose elective courses that are in broad areas similar to the courses from which they are exempted. Courses may be found in social welfare, public policy, urban planning or other graduate programs within the University.

- **(in lieu of courses in practice series 210ABC):** Graduate courses focusing on intervention approaches to enhance functioning in individuals, families, and groups. These courses would most often be found in applied disciplines such as social welfare, psychology, or education, for example.
- **(in lieu of research or statistics 213AB):** Courses focusing on research methods broadly relevant to social work, or to practice, program or policy courses with significant emphasis on evaluation or the weighing of evidence.
- **(in lieu of social policy 214A):** Graduate courses in some way related to history and/or policy in social welfare, health broadly construed, gerontology or related domains such as urban planning, public policy, health, international development or law.
- **(in lieu of human behavior 211A):** courses on life span or human development.
- **(401&402):** Field hours and courses cannot be replaced under any circumstances, no exceptions.

Review Process – During the weeks prior to the enrollment period in the Fall of their first year, eligible students will declare their intention to be exempted from selected first year courses ([Advanced Standing Course Waiver Form](#) due August 15). They will reference the relevant first year MSW course and cite the corresponding course on their undergraduate transcript. The student will also provide a copy of the BSW course syllabi from the semester they took the course, demonstrating the common content across the UCLA MSW course and the BSW course already taken.

These materials will be submitted to the curriculum committee for review, while students are searching for appropriate courses to take in lieu of the BSW courses. Students will be notified within one week (from the deadline) of the first-year courses for which they have already satisfied the requirements by virtue of their BSW degree.

After being informed of the courses for which they are exempted, students may then submit requests to enroll in substitute courses. Students should keep in mind that finding suitable courses may prove difficult given the demands of field education and space availability in courses offered outside of the department.

Student Participation Opportunities

MSW students have multiple avenues to provide direct input to the department, and impact curriculum and the administration of the MSW program. MSW students are a major stakeholder group, and the department has increasingly enlisted the voices of students in all aspects of the governance and implementation of our program.

Student Alliance:

The department supports the Student Alliance which is the student-driven, umbrella organization for all MSW students. The Student Alliance utilizes departmental listservs to send news to their cohort via the weekly newsletter, and works closely with the chair and associate director by co-hosting quarterly forums to address issues generated by the student body. The Student Alliance also communicates and is represented on the UCLA Graduate Student Association (GSA) to gather funding and other resources pertinent to MSW students.

Student Forums:

The co-chairs of Student Alliance survey students prior to the quarterly forum, and gather questions and concerns from their cohort. Issues cover the breadth of our MSW program (e.g., courses and field education, finances, program climate), and are sent to department administration to help them prepare ahead of the forum. The department chair and associate director/director of field education typically attend the forum, and may be joined by other departmental or Luskin staff to provide support and resources. The Student Alliance co-chairs and other students in attendance report back to their cohort, and the department follows-up with any action items, including referrals to other departmental committees and or resources in Luskin or the broader campus.

A full list of Student Organizations along with a description of each group is available for all current and prospective students on our website. Student organizations are encouraged to register with the Student Organizations, Leadership, and Engagement (SOLE) to establish formal recognition by UCLA, and also identify a faculty advisor to assist them in navigating opportunities within UCLA and in the community.

Student Representation on Departmental Committees:

Annually, the department works with the Student Alliance to identify student representatives to serve on departmental committees, and to act as liaisons between their cohort and the faculty. Ideally, we have both 1st Year and 2nd Year representatives on each committee so that there can be continuity and a transfer of experience and knowledge among the students.

Faculty Search Committee:

When the department recruits additional faculty members, a student representative is involved in this critical endeavor. The student attends a faculty search process training which includes content on Equity, Diversity, and Inclusion. The representative meets with the search committee, review CVs, interviews candidates, and attend meetings/presentations/dinners with finalists.

Area of Concentration Committees:

Each AoC - CFWB, HMHAL, SEJ – has student representatives who will attend meetings (at least quarterly), participate in discussions and decisions related to curriculum relevant to the AoC, review syllabi for existing and newly proposed courses, and gather student feedback and liaise between committee and the student body. Each AoC also plans at least one AoC-related presentation per year, so student representatives are involved in all aspects of planning, marketing, implementation, and evaluation.

Curriculum Committee:

Similar to the AoC rep, the student representatives will liaise between the student body and committee, participate in discussions relevant to the entire MSW program – which includes the 1st Year curriculum. The Curriculum Committee consists of faculty chairs from each AoC, so the student representatives on this committee should have ongoing contact with the student representatives on the AoCs, to ensure student issues are addressed.

Dean's Student Advisory Council:

The vision is a Dean's Student Advisory Council which includes the representation and participation of graduate and undergraduate students across Luskin. The goal is to have more transparency around school-wide matters, bulk up on interdisciplinary opportunities, and to facilitate better dean's office communication with students. The committee members would be assembled with two reps from each degree program, with staggered graduation dates to assure continuity.

Diversity, Equity, and Inclusion (DEI) Committee:

Following the killing of Black citizens by law enforcement in 2014-15, MSW students met with faculty to organize the DEI Committee. While the DEI Committee had predecessors such as the Diversity Committee, this again was a student-initiated effort whose purpose was as follows: The Social Welfare Committee on Diversity, Equity, and Inclusion (DEI) is a collective effort of Social Welfare students, staff, field faculty, and senate faculty members to ensure that issues of race, class, equity, privilege, identity, gender, sexual orientation, ability, age, and social justice are adequately and effectively integrated across the Social Welfare program.

The DEI Committee was initially an Ad-Hoc group, and was formalized as a standing committee in the department and includes MSW and PhD students, staff, field education faculty, and senate faculty. The DEI Committee has demonstrated a direct impact on policies and practices in our department including Recruitment and Admissions (helping to organize and staff the annual Diversity Fair), and advocating for student representatives on all departmental committees. Students continue to be actively involved in meetings (at least quarterly), participate in the Diversity Fair, planning events, and initiate efforts to maintain and increase DEI in our program. One effort under consideration is joining more closely with the Social Welfare Anti-Racism Committee (SWARC). SWARC is a group of MSW and PhD students from the Luskin Black Caucus who, along with faculty, initiated the Action Plan to Address Anti-Blackness and Racism in July 2020.

Diversity, Disparities, and Difference (D3)

A 2nd Year MSW student acts as the Project Manager (PM) for the D3 Initiative, and works with PMs from the other departments in Luskin and the Dean's Office to initiate and support DEI efforts by student organizations, and to address climate issues. D3 impacts all students through the annual Equity in Public Affairs Training at the beginning of the academic year, and hosts quarterly Community Collaboratives and other events to connect students and faculty within and across disciplines.

Student Responsibilities and Accountability Procedures

Student Responsibilities

Our program abides by the [NASW Code of Ethics](#), along with the [UCLA Graduate Division Standards and Procedures](#), and our internal program expectations, as outlined in the principles below.

a) Active Participation

Students are embarking on process that requires a great deal of effort and as such, they must be willing and able to:

- Attend and participate in classes and field placements per the expectations outlined in the syllabi and in accordance with the field setting and the [Council on Social Work Education Core Competencies](#);
- Navigate transportation to attend field and classroom requirements;
- Use the technology required to engage in scholarship and effective practice;
- Remain in communication with their field education faculty liaisons and faculty instructors and advisors, particularly in the case of lapses in attendance or personal situations that arise during the course of the program.

b) Emotional Health

In accordance with the [National Association of Social Workers' \(NASW\) Code of Ethics](#) (§ 4.05), social work students should not allow their personal problems or issues to interfere with their judgment and performance or to jeopardize the best interests of people for whom they have professional responsibility. Students must be willing to:

- Demonstrate appropriate self-disclosure (the revealing of personal information) and professional boundaries in classroom and field-settings;
- Maintain respectful relationships with other students, faculty, field instructors/task supervisors, staff, clients, and other professionals;
- Seek appropriate help when personal issues interfere with professional and/or scholastic performance;
- Demonstrate the ability to integrate into practice constructive criticism received in both didactic and field-settings.

c) Self-Awareness and Reflective Thinking

Self-awareness and reflective thinking is an ongoing part of social work education. Students must be willing and able to demonstrate:

- A willingness to continually reflect on their own values, attitudes, beliefs, biases, emotions, past and current experiences, and to consider how these factors affect their thinking, behavior, interactions, and relationships;
- Capacity to continuously re-assess their own strengths, limitations, and suitability for professional practice;
- Take responsibility for their own actions and consider the impact of these actions on others;
- Seek supervision and accept constructive feedback with an open mind.

d) Respect for Diversity, Social Justice, and Anti-Racism

Social work practice requires understanding, affirming, and respecting another individual's way of life and values. Social workers appreciate that, as a consequence of disparities and

differences, a person's life experience may include oppression, poverty, marginalization, and alienation as well as privilege and power. Students must be willing and able to:

- Demonstrate a willingness to examine their personal beliefs, values, and assumptions that perpetuate racism and other forms of oppression;
- Strive to relate and to work effectively with others who differ from themselves, regardless of the person's age, class, color, culture, race or ethnicity, family structure, beliefs, religion, sex, gender, gender identity, sexual orientation, marital status, national origin, ability, and/or value system;
- Approach differences with an attitude of humility and respect, acknowledging the importance of cultural differences in shaping life experiences;
- Exhibit an appreciation for difference and a commitment to engage around the complex issues of racism, diversity and social justice;
- Critically examine one's own relationship to their privileged statuses and how these statuses influence the social work relationship.

e) Ethical Conduct

Students are required to adhere to ethical conduct and decision-making in accordance with the values, ethics, and standards established for the social work profession, as formalized in the [NASW Code of Ethics](#), and to abide by all applicable University policies. Students must be willing and able to meet the following requirements:

- Adhere to a commitment to clients' rights to freedom of choice and self-determination.
- Demonstrate behavior and decisions reflecting the highest standards of honesty and personal and professional integrity;
- Understand their role in practice as a learner and social work student. This includes the ability to correctly judge the limits of one's own competence and to seek help from an appropriate source when necessary;
- Disclose any discipline imposed by a state licensing board or the equivalent; and
- Follow federal and state laws and agency policies regarding confidentiality and mandatory reporting, including seeking permission from agency administrators for the use of agency materials, records, or audio-visual materials for academic course work.

f) Interpersonal and Communication Skills

- Communication and relationship skills are key to social work practice. Students must be willing and able to: Demonstrate the ability to build rapport with and work effectively with colleagues, faculty, field instructors/task supervisors, staff, clients, and other members of the community;
- Demonstrate the capacity to understand the experience and perspectives of individuals or groups and use this empathy as a basis for a productive relationships;
- Exhibit conflict resolution skills, including the ability to negotiate differing attitudes and opinions;
- Maintain an environment free from violence, intimidation, and abuse, including on social media;
- Abide by the [Standards for Technology in Social Work Practice](#)

g) Professional Standards

- Students must be willing and able to: Show the capacity to successfully complete required field practicum hours and demonstrate positive progress in the required competencies and behavioral indicators in the field and classroom settings;
- Follow the policies, procedures, and operating standards of the University, Lusk Social Welfare, and the field placement agency;
- Adhere to agency policies and practices through the learning process and supervision.

Student Accountability Procedures

Our approach for MSW student accountability to the standards outlined above may be viewed in stages.

STAGE 1: Prevention and community agreement

During program orientation, faculty and/or staff clearly communicate that students are required to learn about and commit themselves to upholding ethical and professional behavior. Students are asked to review these standards, to discuss them with your academic advisor(s) and to indicate that they have read these principles and agree to abide by them while in our program.

STAGE 2: Addressing the concern

Stage 2 depends on the concern that is brought to the attention of a staff or faculty member, and whether it is a low level or high level concern. Concerns related to field education (regardless of level), may result in the issuance of a Performance Improvement Plan (see Field Education section) for details.

Low Level Concerns include, but are not limited to, violations of ethical or professional standards with:

- Demonstrated student awareness, initiative, and ability to resolve the issue;
- Evidence that the impact is limited mainly to the student and has not gravely impacted the community;
- Faculty or advisor confidence that the issue can be solved through one-on-one discussion or referrals to outside professionals.

Low level concerns will first be addressed one on one with the student's advisor, field liaison, or another trusted faculty/staff member. Some information may be shared with the graduate advisor or chair, as needed.

If a low level concern persists or worsens after a discussion has taken place, the Associate Director of MSW Education will be notified. The Associate Director of MSW Education is then responsible for directly talking with a student about the concern and helping that student understand and develop strategies to help address identified concerns. The Associate Director of MSW Education may consult with faculty who identified concerns and meet with the faculty and student in a collaborative discussion aimed at problem solving and goal-setting.

High Level Concerns include, but are not limited to, violations of scholastic or professional performance standards explained above, in which there is/are:

- Evidence of harm or risk of harm to self, others, agency or university;
- Diffuse concerns which affect multiple aspects of the learning environment;
- Concerns regarding how the student's behavior negatively impacts the learning environments for others;
- Concern regarding violence, abuse, or illegal conduct.

Note: A high level concern regarding gender-based harassment or violence will be immediately referred to the University Title IX office. The Title IX office and/or Dean of Students will then handle that concern within the purview of their own protocols and procedures.

In the event of a high-level concern noted above:

- If the high-level concern violates the UCLA Student Code of Conduct, the student may be referred to the Dean of Students Office.
- The student will be required to meet with their academic advisor, the Associate Director of MSW Education and their field liaison to review the concern(s). The team will then make a recommendation to the chair of the program and the student, regarding a remedy, solution, and/or recommendation for continuation in the program.
- At that time, the student will have a 1-week time period to respond to the recommendation, in writing, before the department chair makes a final determination about next steps. These next steps might include an individual improvement plan. This plan shall include:
 - Goals for improvement and specific dates to meet those goals;
 - Resources to meet those goals; and
 - Consequences for failing to meet these goals.

Students will have a chance to review the plan with the Associate Director of MSW Education and/or the Department Chair.

Stage 3: Recommendation for Suspension or Dismissal from MSW Program

In extreme circumstances and when other options have not been successful, the Chair and/or the Dean of Students may make a recommendation to the Graduate Division that the student be suspended or dismissed from the program. This can happen under three potential conditions:

- A high-level concern has been identified that is serious enough to warrant a recommendation for immediate dismissal from the program;
- A student fails to adequately address professional behavior concerns within one or more quarters (in field education or within the academic program); or
- Failure to meet academic probation requirements or for academic dishonesty that is upheld by the Dean of Students investigation process.

NOTE: The Graduate Division makes all final determinations regarding dismissal of an MSW student from the program. The Dean of Students Office or the Title IX office may also recommend sanctions, depending on the nature of the violation. The Graduate Division also has an appeal process in place for matters of academic concern, probation, or dismissal. Information relating to academic probation and appeals can be found in [Standards and Procedures for Graduate Study](#).

MSW Students and Faculty

Faculty are expected to behave ethically, with integrity, and abide by the University's [nondiscrimination policy](#).

Faculty are expected to abide by the [Faculty Code of Conduct](#) rules and in addition, have approved an internal plan to address racism and anti-Blackness within our department.

If you are concerned about a faculty member's interactions with students (group or individual) class content, or other conflicts with faculty, the following steps should be taken:

- Please see that faculty member directly. Sometimes disputes are best resolved through an interpersonal interaction that results in mutual understanding.
- If the issue is not resolved through (1), students may seek consultation from their academic advisor, field liaison, Associate Director of MSW Education, or lecturer coordinator. Oftentimes these consultations prove to be effective for working through disputes.
- If (1) or (2) does not address the issue, the Associate Director of MSW Education, Chair, or lecturer coordinator may intervene through a) direct negotiation, meeting with the student(s) and faculty; or b) communication with both parties, separately.
- An egregious issue should be reported directly to University channels listed in Appendix II.

Luskin Social Welfare Support Services

The [Student Alliance](#) is the student government body for the MSW program. Its officers are responsible for planning events, advocating for students, and helping students navigate the department. If you have a question or a concern about your experience in the MSW program, please contact your Student Alliance representatives first. They are here to help.

The Luskin Student Support Coordinator, Nael Rogers, is available to support Luskin students, particularly from underrepresented groups. They will also work to develop student-led support groups. Nael can be reached at naelrogers@luskin.ucla.edu.

[Luskin Career Services](#) provides counseling and workshops, professional development programs and resources that are tailored to areas of interest within the fields of Public Policy, Social Welfare, and Urban Planning.

The **Social Welfare Bulletin** is a weekly e-mail newsletter that Student Alliance distributes to all MSW students. The Bulletin contains information about upcoming caucus meetings and events, as well as announcements from fellow students. It is important that all students read the Bulletin to know what is happening.

Caucuses: Student Caucuses are student groups made up of Social Welfare and/or other Luskin School of Public Affairs students. These groups are concerned with a variety of issues and host events throughout the year pertaining to those issues. Students are welcome to join as many caucuses as they like. Time commitments in caucuses vary between caucuses and often depend on how much time the individual wishes to put in. Caucuses usually meet every few weeks on a Tuesday or Thursday between 12 PM and 2 PM.

LSPA Computing: The Computer Lab is on the 1st floor at the south end of the building, room 1015. The LSPA Computer Center is reserved for the use of UCLA LSPA students. Students are responsible to pay for all printing charges incurred. There are also numerous places on campus where you can print for free or low cost. **Eating is strictly prohibited in the Computer Lab.**

Senior Fellows Program: The Senior Fellows Program connects 10 to 12 distinguished leaders from the public, non-profit, and private sectors to the Luskin School of Public Affairs. These Senior Fellows take on graduate student mentees from the three departments making up the Luskin School of Public Affairs. Students compete for placement as mentees by writing an essay, and mentorship assignments are made based on compatible subject matter interests and commitment to the mentorship process. The formal program begins in October and students connect with their Fellows throughout the year via email, phone calls, and personal meetings.

To access our various [Departmental Forms](#), please visit our online website.

Field Education

Overview

Historically, social agencies and social work education have worked in close collaboration. The Master's degree in Social Welfare is a practice-oriented degree which is predicated on the assumption that the schools and the community of social work agencies are engaged together in the process of education. This has been accomplished through the practicum course of fieldwork that is mandated for accreditation by the Council on Social Work Education (CSWE). This joint

endeavor is based on a mutual commitment to the profession, to the development of high quality practitioners and to the provision of quality services to those we serve.

The UCLA Department of Social Welfare utilizes approximately 200 agencies each year for the placement of its 200 master's students. Because of the students' varying interests and learning needs, we seek a variety of settings serving diverse populations. The Department considers the placement agency as a laboratory where the student puts into action that which is being taught in the classroom. The students then incorporate these experiences into their professional development. Because there is seldom a perfect sequential tie between course content and experiences in the placement, creative field instructors are needed to facilitate the generalization, carry-over, and integration of knowledge.

This joint endeavor is one that is mutually rewarding. Students bring to the agencies different life experiences, dedication, commitment, and vitality. They often pose challenging questions that stimulate thinking and reappraisal. It is hoped that the agencies derive benefits from their affiliation with the Department.

The goal of providing the best learning/teaching opportunity for the student is primary. This can be achieved only if mutual regard exists for the integrity of each partner to the agreement based on clear definitions of the respective roles and the responsibilities of the Department, the agency, and the student as learner. It is in this spirit of partnership that the Department has outlined the following objectives to be used in the joint efforts to educate social workers.

Field Education Course and Learning Objectives

Field Education Course (401ABC & 402ABC)

The field course provides the student with an opportunity to practice, develop, and enhance professional experiences within the field of Social Work. Clients, field instructors, agencies, and communities join with the field liaison and academic faculty in providing learning experiences and challenges to the social work student. The field placement experience is a critical part of the students learning process. It is the point of interaction between the university, the community, and the student. Field Placement provides a laboratory-type experience for testing practice skills and theory while simultaneously allowing for a set of real-time experiences to assess the value of that knowledge in the lives of people in the community.

The field course consists of a field placement, field modules, trainings, seminars, and joint student, field instructor, and field liaison evaluations for the first year students. During the second year, the field course entails of additional hours of field placement experience with the continuation of student, field instructor, and field liaison interaction and evaluation.

Field Education Learning Objectives

Field education is required of all students in both years of the MSW program. While the overall field objectives and their content are shared with other components of the curriculum, the method of teaching and learning differs. Because it is based in the realities of practice, field education

provides the student with supervised experience for defining and discharging a variety of social work tasks on behalf of individuals, families, groups, and communities. The field education objectives in this Department's curriculum are designed to help the student to:

- Acquire professional skills in the sequential process of problem definition and resolution through various methods of social work; re-specify and apply theoretical and general knowledge gained elsewhere in the curriculum to the specific and immediate problems encountered in practice;
- Acquire the specialized knowledge and skills relevant to a particular social problem or population which are not necessarily included in classroom instruction;
- Critically assess and modify the effectiveness of various patterns of service delivery in conjunction with other social institutions and other personnel (professional and nonprofessional);
- Obtain a holistic (person-in-environment) view of the needs of a given population or social problem area, as a basis for engagement. Achieve and demonstrate those ethical behaviors and attitudes essential to a professional; namely, personal integrity and responsibility, self-discipline, self-awareness, commitment to those he/she serves, and to the achievement of the goals of the social work profession; and this includes the capacity to consider the importance of culture, race, ethnicity, social economics status, age, gender, sexual orientation, disabilities, different community experiences, geographic location(s), and other social dimensions that influence the lives of individuals, families, groups, and communities.

Field Education Liaison

Each student is assigned to a member of the University-based field education faculty who acts as the Department Liaison to the placement agency. In addition to certain administrative responsibilities inherent in the Department's Affiliation Agreement with the agency, the field liaison:

- Works with the agency field instructor to develop the content of field instruction with regard to learning experiences and assignments.
- Reviews the student's performance and consults with the field instructor and the student on the assessment of level of performance.
- Has final authority for grading.

The field liaison is available to the student to discuss progress and other issues related to the placement. Students should meet with their field liaison at least once per quarter and prior to field site evaluation visits. Students are encouraged to meet with their Liaison at any point they have questions about any aspect of their placement. When the student believes that the Liaison has not taken action to resolve issues of concern in the placement, the student should see the Director of Field Education. It is the Department's experience that the agency field instructor and the student can resolve most matters provided the student accepts responsibility to openly discuss areas of concern.

When in doubt as to what may be reasonably expected of the agency and field instructor, the student should discuss the issue of concern with the Liaison. It should be noted that it is the

intent of the Department and its field instruction agencies that every reasonable effort will be made to facilitate a positive learning experience for the student.

Field Education Days/Hours

First year students are in field placement two days a week, on Mondays and Wednesdays for 8 hours a day. Agencies may have regular 9 AM – 5 PM business hours, but others can vary according to the setting and could include early morning, late afternoon, and evening hours. Fridays are reserved for Community Modules in the fall and winter quarters. Field seminars are held throughout the year on campus but not every week; dates will be provided.

Field Hours: First Year: 63 Days/504 Hours/33 Weeks

The first year field placement is designed to be a generalist experience including both micro and macro activities. In addition to the field placement, the first year fieldwork course also includes field modules, public counsel training, and field training seminars.

Second year students are in field placement three days a week, on Mondays and Wednesdays for 8 hours a day, and on Fridays for 4 hours. Second year students interview with selected agencies so the agency's scheduled work hours should be taken into account.

Field Hours: Second Year: 94 Days/628 Hours/33 Weeks

Credit Hours:

- First Year Field Instruction (401A, 401B, 401C) carries 9 units of credit granted for successful completion.
- Second Year Field Instruction (402A, 402B, 402C) carries 12 units of credit granted for successful completion.

Students must adhere to the agency's working hours on the designated days of field education. The days of field may NOT be changed without prior approval of the field liaison, and then only for compelling educational reasons. If the agency program requires evening hours, the student will fulfill the specified number of hours allocated to field education each week on designated field days. Compensatory time for evening hours should be reflected in modifications to the field schedule made by the field instructor. Field hours are scheduled in concert with campus class schedules, thus any modifications must be done with class time having first priority.

Holidays: Please note the academic holidays listed in the field education and academic calendar on which students are excused from field education. However, students are not excused from field education on agency-only holidays. Students are expected to make up that time.

Field Instruction and Absence Make-Up Time

Three (3) absences PER ACADEMIC YEAR (1 ABSENCE PER QUARTER) from field

education, field instruction, modules and seminars, due to illness or other valid reasons may be excused at the discretion of the field instructor (field instruction) or field liaison (modules and seminars), as long as they do not interfere with the student's agency responsibilities or overall learning. After 3 absences (for ANY reason) from field instruction, make-up time is required (see Make-up Time). Since graduate credit for field education is dependent on the number of hours completed in the field, as well as the student's performance, the agency field instructor and the student must report immediately to the field liaison any unexcused or extended absences more than three times so that makeup time may be arranged. All students are expected to notify the field instructor immediately of any absences, however brief. **Note:** Missing internship hours can be made up, but seminars/modules, obviously, cannot. Missing seminars may affect the student's grade for field education.

Make-up time may be required during University Winter and Spring recesses, at the conclusion of regular field instruction in the Spring Quarter or at other times during the week which do not interfere with class attendance. When make-up time for prolonged absences cannot be scheduled with the time available in the academic year, the student will be required to repeat the field work course in its entirety in a later academic year or at a time to be determined by the Department.

Students are encouraged to meet with the field liaison as often as needed. It is expected that students should have contact several times during the academic year with the field liaison, usually accomplished in conjunction with the completion of a task -- i.e., learning agreement, evaluation, decision making about 2nd year placement, and for career advisement.

Field Placement and Field Agencies

Field Placement Process

Field education faculty members coordinate all field placement assignments for both first and second year students. First year assignments are made during the summer prior to the beginning of the academic year.

Beginning in the Winter Quarter (WQ) of the first year, students participate in a series of activities that facilitate the selection of a second year field placement. During the Winter Quarter the 2nd Year Placement Process begins and continues into the Spring Quarter (SQ). There are many activities that take place during this process to support students, including individual and group meetings with the student's 1st Year field liaison, meetings with other field liaisons, Specialization and Concentration Orientations, the Placement Fair, and the Student Alliance Lunch-and-Learn. All first-year students are required to meet with their respective liaisons to identify two agencies where they would like to be interviewed.

Summer Block placements are arranged for any regular, full-time students or dual degree students (e.g., MPP/MSW, MPH/MSW, and AAS/MSW) who are in good standing in the MSW program. During the 2nd Year Placement Process, the student begins the consultation process with his/her current field liaison to identify potential summer block placements. Summer Block placements are subject to agency availability. Students in PCW stipend programs are not eligible for summer block placements. Students also considering the PPSC/SSW/CWA should consider a

regular academic year placement since most school districts in southern California do not have summer hours or field instructors working in the summer.

Interviews take place from mid-April to mid-May (the time frame for interviews is coordinated with the other MSW programs in the Los Angeles area). Following the interviews, students rank their first and second choices. The agencies submit a list of students who they deem to be acceptable or unacceptable. The field education faculty then matches the students to the field placements. Students who are not accepted by either agency are sent on a subsequent interview. Students who fail to be selected by an agency after several additional interviews will have a meeting with their field liaison and faculty advisor. The field liaison and faculty advisor will then make a recommendation to the chair, which may include termination from the program.

Place of Employment Policy

While UCLA strongly encourages MSW students to expand their experience beyond past or present social work agencies where they have worked, students can petition for their 2nd Year placement to take place in their current place of employment. That said, the following conditions must be met without exception. The agency must be able to provide a substantial learning experience that aligns with all identified CSWE competencies and UCLA MSW requirements and provide a qualified field instructor who can provide educational supervision. • Field education supervision may be provided by the same supervisor if field education supervision is distinct from employment supervision and the supervisor meets the requirements of Accreditation Standard 3.3.6.

Students who are interested in this option for their second-year placement must complete the Employment-Base Internship Application (email Field Education Advisor). Student must submit it to their current field education liaison, who will review the petition along with the Director of Field Education. The field education personnel will determine the suitability of the placement that includes the following criteria:

- The proposed learning activities are outlined and align with the CSWE competencies and UCLA's field education requirements; and, also meet the competency behaviors consistent with the student's Area of Concentration.
- Field education supervision may be provided by the same supervisor if field education supervision is distinct from employment supervision. The field instructor must possess a MSW from a CSWE-accredited social work program, and must have at least two years of post-masters experience. The field instructor must have completed or is currently attending a new field instructor seminar at UCLA or other MSW program in the Southern California consortium. The field instructor must provide one hour of individual supervision on a weekly basis, complete the necessary field education evaluations and other learning tools as required, and meet with the assigned field education liaison at least twice per academic year.

If we become aware that field learning tasks and/or educational supervision are not occurring as planned, we reserve the right to terminate the placement and require the student to complete their required hours at another educational placement. Also, if any employment-related disciplinary actions occur which results in the termination of employment, a student may need to complete

their required hours at another educational placement. Although we encourage the agency and student to make clear agreements about pay and benefits during the internship portion of employment, UCLA cannot enforce agreements related to employment, only those related to field education standards.

Strike Policy

The UCLA Department of Social Welfare Field Education's policy regarding agency strikes/work actions is based on the educational and practicum expectations agreed upon by the Field Education Affiliation Agreement; and, which are reinforced through the student's Learning Agreement that outlines mutually-agreed upon competencies, and learning opportunities and activities. While it is not the Department's position to determine the merits of any given strike or work action, it is the Department's belief that a strike bound agency is not able to provide the agreed upon educational climate. Depending on the length of the work strike, Field Education will work with the Field Instructor to assess and determine alternate educational experiences for the affected student(s).

Field Placement Process for MSW/JD and Combined MSW/PhD Students

If you are a MSW/JD or combined student MSW/PhD your second year field will proceed along a slightly different trajectory based on several factors. These factors are in large part dependent on when you entered your program. MSW/PhD and MSW/JD students will be required to participate in a Summer Block placement in fulfillment of their second field placement. All MSW/PhD and MSW/JD students should contact their assigned field liaison who will support students in selecting and navigating the second year placement process. When all first year students receive their initial information about the 2nd Year Placement Process, that is your cue to work closely with your field liaison and to contact Gerry Laviña, the Director of Field Education. Summer Block placements require summer session enrollment including registration fees as determined by UCLA Summer Sessions. The student is responsible for those fees and financial aid is available.

Agency Visit

In support of the student and field instruction, field liaisons visits occur twice each academic year. The purpose of the visit is to evaluate the student's performance as well as the effectiveness of the field instruction. It is an opportunity to share successes and areas to improve for both the student and the agency. The learning agreement is reviewed, evaluated, and at times, revised. On occasion, the liaisons also meet with agency administrators and preceptors. Field instructors are informed that the field liaisons are available on short notice to meet with them or consult over the telephone if issues arise that demand immediate attention.

Agency Affiliation Agreements

The field education program of the department is made possible by affiliation agreements entered into between local health and welfare agencies as independent institutions and the Regents of the University of California acting on behalf of Luskin Social Welfare. There is a formal Affiliation Agreement which specifies the responsibilities of the affiliate agency and Luskin Social Welfare, arrived at with respect to the integrity and mission of each institution. The Department sets the

criteria to be used in the selection of field agencies and agency-based field instructors, but in all instances the agency reserves the right to protect the interest of those it serves and to set its own standards and methods of practice, policies and procedures. The consequences of this arrangement are significant to the student in the following ways:

- The student is required to observe agency policy in all matters, with the agency field instructor having final authority as to the nature of service provided by the student.
- The agency assumes the cost of field instruction and may determine when instruction of the student exceeds that agreed upon by the Affiliation Agreement.
- The agency field instructor is an employee of the agency with prime responsibility to the agency and is responsible to the Department only to fulfill the teaching functions specified in the Affiliation Agreement.
- A Learning Agreement will be developed between each student and his/her field instructor.

Field Instructor

In most cases this person is an employee of the agency where you will be completing your field placement. The field instructor must possess a MSW from a CSWE-accredited social work program, and must have at least two years of post-masters experience. The field instructor must have completed or is currently attending a new field instructor seminar at UCLA or other MSW program in the Southern California consortium. The field instructor must provide one hour of individual supervision on a weekly basis, complete the necessary field education evaluations and other learning tools as required, and meet with the assigned field education liaison at least twice per academic year.

Field Instruction Documents

Field Education Forms are available online at <http://www.runiptca.com/web/login.php> for students and agency field instructors. Student performance expectations and evaluation procedures are delineated.

Placement of Students

Assignment of students to a given agency for field instruction is the responsibility of the Department, under direction of the Director of Field Education and the field education faculty in consultation with the agency. The agency determines the number of students it will accept. Whether these will be first or second year students is determined mutually.

Among the agencies available to the department each academic year, field assignments of students are made on the basis of the following criteria:

- Educational needs;
- Past experience of the student;
- Methods chosen (micro/clinical or macro/planning and administration);
- Geographical residence of the student;
- Immunization clearance from ASHE;
- Stipend obligations of the student when pertinent; and
- In the second year, preferences of students (according to their concentration).

Students DO NOT contact a placement directly to arrange their field placement. This is done by the field education faculty. Students only contact agencies after instruction from their field liaison.

Once placement assignments have been announced, student requests for change of placement are not ordinarily granted. Exceptions to this policy are based on unusual extenuating circumstances.

The UCLA MSW program requires that all required field education hours be completed while in the MSW program. Previous work or internship experience will not be given consideration toward field education course credit or counted toward field education internship requirements.

Immunization Clearance/COVID-19 Vaccine Exemptions

The UCLA MSW program requires that all students obtain a [health clearance](#). In certain limited circumstances, students may be granted a medical exception, an accommodation based on religious beliefs or disabilities, or a deferral based on pregnancy. While we do understand that UCLA is allowing for exemptions under special/certain circumstances, please be aware that your agency may or may not allow such exemptions. While we will do our best to find an agency that will allow an exemption or that does not have a vaccination policy, please be advised that field education is an integral part of the MSW program and that if we are unable to find a suitable placement, you will not be able to meet the program requirements.

Evaluation of Fieldwork

Learning Agreement

The Learning Agreement is a flexible document that can be modified throughout the year by the field instructor and student working together. Major changes should be cleared with the field liaison. The learning agreement for all students uses a format that complements a competency based evaluation instrument. The learning agreement provides a structure for the placement experience and expectations are delineated. It is the focus of both the student's and field instructor's attention during the first weeks of placement, and should be revisited throughout the academic year. It is the student's responsibility to complete the written document, while the content should represent mutually agreed upon objectives. Students are responsible for submitting the learning agreements on the dates specified in the field education calendar. Like the evaluations, the learning agreements are to be signed by the student, field instructor, and field liaison. **Note:** Students assigned to the Title IVE programs (CalSWEC, LA DCFS) may use learning agreements and receive evaluations specifically designed to prepare them for work in public child welfare settings.

The Agreement is to be developed between the field instructor and the student. The students have the responsibility for writing up the Learning Agreement. Following a review of the Learning Agreement with your field instructor, it is to be submitted to your field liaison. It will form the basis for part of each evaluation. Make a copy for yourself, your field instructor and your field liaison, and please follow the directions in IPT and save each section.

Student Self-Evaluation

In accordance with the on-going evaluation of the student by the agency and by the university, the student is also expected to complete a self-evaluation of his or her own performance at the conclusion of each quarter. As the evaluations are used to gauge the student's performance in the field in order to further enhance learning, the student self-evaluation is a way for the student to assess his or her own level of accomplishment at different intervals throughout the year-long internship. Within the evaluation, the student should address themes essential to social work practice, such as identity as a professional and as a learner, experiences that have developed the student's knowledge base of fieldwork, and identification of areas that may need improvement within the next quarter or for future practice. **The student should complete a self-evaluation at the termination of each quarter of field work on the assigned dates**, building on the previous evaluation or experience as an intern. A guideline for successfully completing the evaluation is located at the field education website: <http://www.runiptca.com/web/login.php>, as the student is encouraged to be an active participant in his or her education.

Field Grades

First and second year field courses are defined as separate, year-long courses. A student may not advance to second year field instruction until successful completion of the first year. Successful completion of both years of field instruction is required for the MSW degree. The University records only one official grade for each full year of field instruction. Satisfactory grades assigned for field instruction will range from "A" to "B". The final grade is given at the end of the spring quarter. The final determination of the grade is made by the field liaison based upon the field instructor and student evaluations. A failing grade in field course 401ABC or 402ABC will put a student in danger of being dismissed from the MSW program.

Unsatisfactory Practice

Students whose field instruction in either year is interrupted due to unsatisfactory performance by the determination of the Department and/or dismissal from the field agency will not receive credit for any prior quarter of the year. The grade of "F" at the end of either year of field instruction shall necessitate the repetition of the full year of field instruction. Permission to repeat a full year of field instruction is the decision of the Department Chair in consultation with the Director of Field Education and appropriate faculty committees.

If a student's performance is unsatisfactory at any time during the academic year, the field liaison is to be notified immediately by the field instructor. Depending on the performance issue(s), a decision will be made regarding the student's ability to continue in the field placement. The School recognizes that the agency reserves the right to unilaterally terminate a student if their behavior is deemed to be highly inappropriate and places the agency, its staff, or clients at risk. Most decisions concerning the student's status in the placement should not be unilateral. The field instructor, student and Liaison are partners in arriving at a recommendation and a plan for resolving problem(s).

It is recognized that problems in the field course are often complex. If a decision is made for the student to continue in the placement, a plan of action is required to ameliorate the performance

deficits. Every effort should be made to help the student improve and meet the Learning Agreement objectives.

To facilitate this process, a “[Performance Improvement Plan](#)” (form on website) is developed to:

- Delineate the issues;
- Specify the steps to be taken by the student, field instructor, and field liaison;
- Establish a time line for correction.

Student participation in this process is essential. There is a defined grievance procedure (Appendix I) students may follow when differences in perception occur. Remember, early notification and intervention combined with clearly defined issues with specific examples, are the best strategies for problem solving. Most problems that arise in the field placement, whether personal, academic, or administrative can be resolved by open professional discussion.

Notice of Failure to Meet Performance Expectations

When it becomes clear to the field instructor that a student is not meeting performance expectations, it shall be the responsibility of the field instructor to inform the student’s field liaison and the student of this judgment. A joint conference of the field instructor, the Liaison and the student shall be convened to discuss the situation, and identify the student’s performance difficulties. If it is determined that the student will continue in the agency, steps will be formulated in writing via Performance Improvement Plan, to be taken by the agency staff, the faculty, and the student in order to provide the maximum opportunity for the student to meet standards. Insofar as possible, a reasonable time period will be established within which time the student will be expected to bring his or her performance up to the required standard.

The following options are available in the event that a student is terminated by the agency, because of his/her inability to meet standard expectations:

- Plan to redo the first or second year placement in a subsequent year, in a different agency under the supervision of the same or different liaison, with approval from the director of field education.
- The student may receive a failing grade in the field course, putting them in danger of being dismissed from the MSW program.

Nothing in the foregoing procedure shall be interpreted to abridge the right of the agency, as stated in the Affiliation Agreement, to terminate a student in placement when, in the opinion of the field instructor or agency personnel, the student has failed to follow agency policy, has misused agency resources, or the quality of performance is such as to negate the responsibility to its clients. However, we encourage the field instructor to make no unilateral decisions as to a student’s remaining in the agency.

Note: In either case an appeals process is available. See Appendix I.

Modules and Seminars

Field Modules

During the Fall and Winter quarters, first year students are assigned to groups that meet at various agencies in the community. Students are provided with an opportunity to understand the current agency-based organization, policy, and practice of social work across selected populations, the micro/macro continuum, and fields of practice in the Greater Los Angeles Metropolitan area. Each group rotates between modules that explore: Public Child Welfare (PCW) / School and Youth Services; Mental Health Services; Health Services; Aging Services; and Inter-Agency Community Based Services (Skid Row Module). Each module is designed and attended by a team of social work field education faculty in collaboration with agency-based social workers. Most first year modules take place on Fridays. Because of COVID-19 some of these modules will not be offered. More information will be released during Fall and Winter quarter.

Field Education Seminars

The seminars are quite different from the modules, as they are principally experiential learning opportunities. Students will be assigned to groups facilitated by a field education faculty member. Students will be encouraged to join in group decision making and leadership as active participants in the learning process. As such, students will generate the problems, issues, and mechanisms for interacting with one another in the group guided by the facilitator and the suggested topics for each session. The purpose of the group is to provide a forum in which students can focus upon issues and encounters which:

- Emerge from student-participants concerns.
- Have been found by field education faculty to be critical to many students in the learning process.
- Develop a peer and field education faculty supportive learning environment.
- Create a forum for risk-taking, problem solving, and integration of classroom and field placement learning.
- Focus awareness upon increasing the student-participants self-reflection, self-knowledge, self-expression, and use of self in the learning and problem-solving process.
- Provide an opportunity for the group as a whole to explore group process, the effect of group members on one another, and the effect that an individual group member has upon the group as a whole.
- Provide an opportunity for group members to engage in group decision making, group leadership, and group exchange.
- Provide an opportunity for students to engage in active listening, empathic attunement, reflection, challenges, formulating understandings of themselves and others, learning to utilize others as resources, while actively participating in their own learning process.

Safety in the Field

The following suggestions are meant to assist you to remain safe in the field, they are not meant to scare you or cause you to fear your field placement, clients, or the communities you will be visiting. Incidents are very rare and most situations can be dealt with safely and successfully. However, it is important to recognize that when working with populations that are experiencing

life stressors such as poverty, oppression, crisis, or other serious problems, there is potential for uncharacteristic responses in certain circumstances. This is why the Department, your field instructor, and their agencies, work together to prepare you for any potential risks factors related to the clients or the community.

- **Agency Protocol** – Know the agency’s protocol for safety and security. Let agency personnel know your schedule and whereabouts at all times, especially when you are out in the field.
- **COVID Safety**- Review all of the COVID protocols the agency is employing. If you have any concerns, engage with your field liaison.
- **Securing Your Belongings** – Do not leave your personal cell phones, laptops, backpacks, purses and other valuables unattended. Valuables should not be brought to placement settings or left in your vehicle.
- **Working with Clients** – Be aware that your clients may be in situations that are overwhelming or stressful that may result in behaviors that are or may be perceived as threatening. It is possible that clients or family members may be prone to violence and may possess a weapon. You may also interact with individuals that are intoxicated or may have other medical, psychiatric, or neurological disorders. Preparation with your field instructor is key to help mitigate any specific or potential issue with a client and/or their family. Your field instructor will be your guide when responding to these situations.
- **Office Meetings** – Be aware of your surroundings and your position in the room. Look out for any potentially dangerous objects and where the exits are located. You should have a plan for assistance in the event any issue should arise that may require attention. You should consider this when scheduling appointments. Dress appropriately for the field situation you are entering. Do not wear anything that may impede you from leaving an unsafe situation. If your agency has a panic button, please go over the protocol for its use, and know its location in your office.
- **Travel** – Always know where you are going. Valuables should be placed out of sight in one’s vehicle, prior to parking at the destination. Don’t forget to lock all doors and close all windows. When walking to your destination, be alert, and walk with a purpose.
- **Home Visits** – Prior to making a home visit, you should discuss any potential safety issues with your field instructor. If it is your first visit, if possible try to go with another coworker. Notify your field instructor, or other direct supervisor, of your location and when you will be visiting your client. A phone call or text message may be appropriate after leaving your home visit, but that should be determined with your field instructor. If you feel unsafe upon arrival or at any time during the visit, you should not proceed with the meeting and end it in a respectful manner.

Faculty and Staff Directory

Appendix I Field Education Appeal Procedures

Luskin Social Welfare is strongly committed to helping students maximize their learning opportunities and experiences in both field work settings and in the classroom. Potential problems and demonstrated difficulties, both personal and educational in nature, should be identified and acted upon as early as possible, to allow resolution and/or corrective action as necessary. Every effort is made to assure that the student's rights to due process are carefully protected as well as to assure that appropriate protection to agency personnel and clients is afforded.

When a problem arises, early intervention is essential. Problems addressed by this procedure may be related to student performance in the field, agency issues, or faculty conduct. The Student Code of Conduct is referenced in the UCLA General Catalog, Appendix A and in the UCLA Schedule of Classes. The Faculty Code of Conduct is contained in the Appendices of the UCLA Faculty Handbook, Supplement A.

Step 1: Formal Consultation Between Student and Field Instructor

The purpose of this formal consultation is to:

- Clarify problems/issues
- Identify strategies for improvement/resolution
- Obstacles to learning are identified by both parties and communicated verbally.
- Remedial steps to be taken by one or both parties are agreed upon and outlined. A time frame is established. The steps and time frame are written down by the field instructor with copies to both parties.
- Either the student or the field instructor has the right to invite the UCLA field liaison to participate in these activities. When the field liaison is present, he/she should document Steps A and B (outlined above) in writing

Possible Outcomes:

- Identified problems are resolved.
- Extenuating circumstances may result in a student being reassigned to a new field work agency.
- Identified problems are not resolved, proceed to Step 2.

Step 2: Formal Three-Way Conference

When the problem is related to field or agency issues or student's performance in the field, the three way conference will include the student, the field instructor and the field liaison. The following tasks will be completed and documented by the field liaison.

- The field liaison will notify the Director of Field Education that the meeting is taking place.
- The party that requests this conference (student and/or field instructor) should submit the request in writing (telephone requests from field instructors are appropriate with the written request submitted on the date of the conference). This should all take place within 10 business working days after failing to resolve the problem in Step 1.
- The parties clearly identify the problem, remediation efforts, and obstacles to resolution.

- The field liaison communicates with the student and field instructor prior to the three-way conference to identify the nature of the complaint.
- The three-way conference is held with 10 business working days of receipt of the request for a formal conference.
- Following the conference, a formal agreement is written by the field liaison. If the problems relate to student performance, the field liaison will complete the “[Performance Improvement Plan](#)” (located online). The formal agreement/plan:
 - Identifies problem area(s)
 - Notes steps for remediation
 - Outlines process for evaluating progress within a time frame
 - Outlines possible outcomes/consequences
 - The field liaison, field instructor and student sign the document
 - Copies go to student, student’s file, field instructor, field liaison, Director of Field Education, and the student’s Academic Advisor.
- Possible Outcomes:
 - Parties follow through with the terms of the agreement/contact. Problems are resolved.
 - Parties follow through with significant plan terms. Not all terms are completed, but sufficient progress towards resolution warrants an extension of the plan. The extension of the agreement/plan is determined by the field liaison in consultation with the Director of Field Education.
 - Attempts to follow through on the agreement/plan are not successful.
 - If the agency and/or field instructor fail to meet the terms of the agreement/plan, the student may be assigned to a new field placement.
 - If the student fails to comply with the “Performance Improvement Plan,” he/she may be terminated from field with an unsatisfactory grade.
 - Any situation where the field liaison or field instructor determines that there is imminent danger of harm to clients, the student will be removed from the field placement.
- At any step in the process, if the student and/or field instructor has specific concerns regarding the field liaison’s efforts, a conference with the Director of Field Education can be requested.

Appendix II – Campus Resources

Academic & Professional Development Resources

Career Center - Graduate Student Services

- Offers specialized services for masters, doctoral and professional school students: one-on-one career counseling, professional development workshops, interview skill building, & resume/CV workshops.

Center for Accessible Education (CAE)

- Facilitates academic accommodations for regularly enrolled, matriculating students with acute and chronic physical and mental health related disabilities. [Graduate Division Associate Deans](#)
- Provide academic leadership for program development, planning, & decision making in the Graduate Division. Available for assistance if students cannot solve problems within their departments.

Graduate Writing Center (GWC)

- Offers free individual appointments with experienced writing consultants to work on writing issues ranging from style and argumentation to grammar and syntax. Also offers a variety of workshops and programs aimed at improving writing skills and facilitating thesis and dissertation progress.

Institute for Digital Research & Education (IDRE)

- Provides services to UCLA community aligned with five program areas that support computational research, statistical design, data visualization, advanced data analysis of large data sets, & databases.

Financial Resources

Bruin Shelter

- Provides a safe, supportive environment for fellow college students experiencing homelessness by fostering a collaborative effort between universities, community-based organizations, and service providers. [CPA Food Shelter](#)
- Provides free food for any UCLA student who may be experiencing hunger and/or struggling to attain food due to financial hardships. [Economic Crisis Response Team \(ECRT\)](#)
- Provides support to students who are experiencing a financial crisis that impacts their academic success at UCLA.

Financial Aid Office (FAO)

- Provides information and support about awarding of federal financial aid, scholarship/refund process, budget increase requests, and individual counseling support. [Financial Wellness Program \(FWP\)](#)
- Provides support for students to help navigate their finances and improve overall financial well-being. Helps increase financial literacy through one-on-one coaching, workshops, and online resources.

Graduate Division Fellowships and Financial Services (FFS)

- Information about graduate student funding including institutional based fellowships & extramural award processing. Support for successfully applying to fellowships offered by the Graduate Peer Mentors.

Student Loans Services and Collections

- Provides interest free short-term loans to students through the Loan Services Office (A227 Murphy Hall). Short term loans are due the 20th of the following month.

[UCLA Basic Needs Committee](#)

- The Basic Needs Committee is comprised of staff, faculty, students, and community members dedicated to addressing basic needs issues at UCLA.

Health & Wellness Resources

[Arthur Ashe Student Health & Wellness Center](#)

- Devoted to providing quality, accessible, state-of-the-art healthcare and education to support the unique development of UCLA students.

[Campus Assault Resource & Education \(CARE\) Advocacy Office for Sexual and Gender-Based Violence](#)

- CARE is a confidential place for survivors of sexual assault, dating and domestic violence, and stalking. CARE Advocates offer free consultation and supportive services to UCLA students, staff, and faculty.

[Counseling and Psychological Services \(CAPS\)](#)

- Multi-disciplinary student mental health center that offers short-term individual therapy, group therapy, psychiatric treatment & evaluation, crisis consultation, psychoeducational programs & workshops.

[Mindful Awareness Resource Center \(MARC\)](#)

- Offers classes & workshops to general public, teaching skills of mindfulness across the lifespan.

[Resilience in the Student Experience \(RISE\)](#)

- RISE serves as CAPS' holistic wellness hub and provides an array of programs, classes, trainings, and self-directed resources to foster and support resilience, connection, and well-being. This wellness oasis offers meditation, yoga, peer coaching, and other mind-body modalities.

[Supporting Nursing Mothers at UCLA](#)

- A website with guidance in finding appropriate resources, as well as understanding what your rights are as a breastfeeding student, faculty or staff member.
- *NEW* Luskin installed a private lactation space in the fifth floor elevator lobby for student use.

Reporting & Consultation Resources

[Students in Distress & Reports of Concern](#)

- [Consultation and Response Team \(CRT\)](#)
- [Dean of Students Office \(DOS\)](#)

Discrimination Based Concerns

[Report an Incident](#)

- If you have experienced or witnessed acts of discrimination, simply contact welisten@equity.ucla.edu or call (310-825-3935). They will guide you to the right office based on type of discrimination and who allegedly engaged in the discrimination.

For those curious about the details, these generally applicable points will guide you.

1. All gender-based discrimination, including sexual harassment, assault, and violence:
 - [Title IX Office](#) | titleix@conet.ucla.edu; Mohammed Cato, Sexual Harassment Prevention Officer and Title IX Director; mcato@equity.ucla.edu | (310) 206-3417
 - [CARE Advocates](#) | care@careprogram.ucla.edu | (310) 206-2465
 - [Counseling and Psychological Services](#) (for students) 24 hour line | (310) 825-0768
2. All disability claims: If seeking academic accommodations for students:
 - [Center for Accessible Education](#) | (310) 825-1501 If seeking investigation:
 - [Discrimination Prevention Office](#) (claims against faculty) | dpo@equity.ucla.edu | (310) 794-1232
 - [Staff Diversity & AA/EEO Compliance Office](#) (claims against staff) | staffdiversity@chr.ucla.edu | (310) 794-0691
 - [ADA & 504 Compliance Office](#) (claims against students) | ADA/504 Compliance Officer ada@saonet.ucla.edu
3. All other discrimination claims: If claim is **against faculty**:
 - [Discrimination Prevention Office](#) | dpo@equity.ucla.edu | (310) 794-1232
 - Complaint Form ([Word version](#)) | ([PDF version](#))
 - [Investigation Fact Sheet](#)
 - In certain cases, the Discrimination Prevention Office investigates discrimination claims against entities and individuals who are not faculty. This could occur, for instance, when non-faculty conduct is reasonably likely to have a substantial negative impact on campus climate.

If claim is **against staff**:

 - [Staff Diversity & AA/EEO Compliance Office](#) | staffdiversity@chr.ucla.edu | (310) 794-0691

If claim is **against student**:

 - Office of Student Conduct, in [Office of Dean of Students](#) | dean@saonet.ucla.edu | (310) 825-3871
4. To report violent behavior or threats of harm affecting the workplace:
 - [Behavioral Intervention Team](#) | Chris Silva, Behavioral Intervention Coordinator uclabit@chr.ucla.edu | educsilva@chr.ucla.edu | (310) 794-0422

Additional Campus Resources

Bruin Card

- Your student ID card. This card will also serve as your library card, your gym membership and your identification for accessing medical services at the Ashe Center. It is University policy that students carry their Bruin Cards with them at all times in case a student is asked to prove that he or she is a student. It can also get you discounts on the Big Blue Bus and at certain Westwood eateries. You can get your card at Kerckhoff Hall, Room 123 after you've paid your fees Fall quarter.

Bruin Resource Center (BRC)

- Provides services and opportunities to students, particularly current and former foster youth, students with dependents, students in recovery, and undocumented students. [Campus Safety \(UCPD\)](#)
- UCLA has its own state police department (UCPD) with its station located on Westwood Blvd, just south of Strathmore. If you are victim of a crime, you should report it to UCPD. UCPD also

operates a student campus safety program called Community Service Officer (CSO) Programs. CSOs are UCLA students who have been trained by the UCPD to help keep UCLA safe.

[Dashew Center for International Students and Scholars \(DCISS\)](#)

- The Dashew Center is there to help students with issues such as immigration regulations, understanding employment options, and making cultural, educational and personal adjustments to the campus and the community.

[Graduate Student Association \(GSA\)](#)

- GSA is UCLA's student government for graduate students in all areas of study. They work to promote graduate students' interest on campus and within the University of California. GSA has a combination of elected and appointed positions if you would like to get involved. Student Alliance also reports to GSA as the representative body for our department.

[Graduate Student Resource Center \(GSRC\)](#)

- Provides academic, professional, financial, and social resources and services specifically for graduate students

[LGBTQ Resource Center](#)

- Ensures that LGBTQ voices are represented for sensitive and inclusive UC policies and practices. They provide confidential assistance and support to students, faculty, and staff who feel they have experienced harassment or discrimination, or who have questions pertaining to issues of health, housing, financial aid, classroom, and personnel. [Office of Ombuds Services](#)
- Resource for the UCLA community to resolve conflicts, disputes, and complaints in an informal manner.

[Registrar's Office](#)

- Contains useful information including the schedule of classes, academic calendar, and fee information. Located in Murphy Hall.

[Student Legal Services \(SLS\)](#)

- Legal advice and resources for students.

[Students with Dependents Program](#)

- Provides caring and personalized support to UCLA students who are parents, guardians, and caregivers at the undergraduate, graduate, and professional school level.
- The UCLA Store (At LuValle Commons) sells any [textbooks](#) designated as required by instructors. Check course syllabi to see what books are required.
- Information on [housing](#) options for graduate students, including fees and policies for off campus housing.

[UCLA IT Support Center](#)

- Help with UCLA Logon ID, Google Apps, getting remote network access, connecting to campus wireless, and other IT support needs.
- Information on [libraries](#) on campus and the services they provide. The closest library is the Young Research Library (YRL).

[UCLA Recreation](#)

- Recreation and gym options for UCLA students, including fitness classes and membership options.

[UCLA Transportation](#)

- Resources on how to get around UCLA and how to get to campus from your residence. Information on public transportation, vanpool, biking, and other options.
