RESEARCH EXPERIENCE

- 20 – **Graduate Student Researcher** - *uTECH: Machine Learning for HIV Prevention Among Substance Using Gay, Bisexual, and other Men who have sex with Men*. Luskin School of Public Affairs, University of California, Los Angeles
Principal Investigators: Dr. Ian Holloway, PhD, LCSW, MPH
Responsibilities: This project aims to reinvigorate HIV prevention among GBMSM by refining and testing the acceptability, appropriateness, and feasibility of an innovative, social media “big data” machine learning intervention. My role as a graduate student researcher including project management, develop study protocols, facilitate IRB process, conduct qualitative interviews and analysis.
- 23 – **Graduate Student Researcher** – Attitudes toward the LGBT community in China
Principal Investigators: Dr. Ilan Meyer, PhD
Responsibilities: This project aims to investigate the attitude toward the LGBT community among the general population in China, as well as a comprehensive assessment of psychological and behavioral outcomes among the LGBT individuals in China. My role as a graduate student researcher including the development of the two main surveys with the research team at UCLA (Dr. Ilan Meyer) and Yale University (Dr. John Pachankis) and community partners in the U.S. and China.
- 20 – **Research Assistant** - *Integrated delivery of PrEP and harm reduction services for people who use drugs in Uganda*. Department of Global Health & Department of Epidemiology, University of Washington.
Principal Investigators: Dr. Renee Heffron, PhD, MPH
Responsibilities: Conducting a systematic review on assessing facilitators and barriers to pre-exposure prophylaxis for HIV prevention among people who use drugs globally. Developing interview guidelines for in-depth interview to examine healthcare providers and community leaders’ perspective on optimizing integrated harm reduction and PrEP delivery to PWUD in Uganda and similar settings.
- 19 – **Graduate Research Assistant**. *Evaluation of Ukraine’s National Antiretroviral therapy Optimization Scale-Up*. International Training and Education Center for Health (I-TECH), Department of Global Health, University of Washington.
Principal Investigators: Dr. Dr. Nancy Puttkammer, PhD, MPH
Responsibilities: Developing structured surveys on patient-reported outcomes (PROs) among people receiving DTG-based regimen antiretroviral therapy in Ukraine. Managed patients’ medical records. Designed and revised training modules and materials for healthcare providers. I am also conducting a quantitative analysis on assessing the associations of PROs and clinical health outcomes.

- 18 – **Graduate Research Assistant.** *Integrating a combination HIV prevention intervention*
 20 *into a widely used geosocial app for Chinese Men who have sex with men. (MPH thesis project)* School of Public Health, Emory University.
Principal Investigators: Dr. Aaron Siegler, PhD & Dr. Patrick Sullivan, DVM, PhD
Responsibilities: This study included a literature review, mathematical modeling, and development of an HIV prevention package for Chinese MSM that will be incorporated into an existing geosocial networking app (Blued) and pilot tested in two cities. My thesis seeks to examine the prevalence and factors associated with HIV and STI testing frequencies among MSM in China. Conducted quantitative data analysis and disseminated results with stakeholders.
- 17 – **Graduate Research Assistant.** *Acceptability and effectiveness of Assisted Partner*
 19 *Services for HIV prevention and care in Southwest China.* Department of Global Health & Department of Health Services, University of Washington
Principal Investigators: Dr. Ann Downer, EdD
Responsibilities: Conducted in-depth interviews with healthcare providers to examine their concerns and barriers to partner notification services. Qualitative data analysis. Designed, revised, and tested training modules and materials for two national trainings for healthcare workers in southwest China. Conducted program monitoring and evaluation.
- 15 – **Research Assistant.** *Disclosing Parental HIV Status to Children in China.* Department
 17 of Psychology & Department of Global Health, University of Washington.
Principal Investigators: Dr. Jane Simoni, PhD
Responsibilities: Conducting in-depth qualitative interviews and facilitated focus group discussions among parents living with HIV. Scheduled interviews and appointments. Transcribed and translated recordings and managed the qualitative data.
- 14 – **Research assistant.** *Self- and Family-Management Intervention in HIV+ Chinese*
 16 *Women.* Yale University & University of Washington
Principal Investigators: Dr. Wei-Ti, Chen, RN, CNM, PhD, FAAN
Responsibilities: Conducted in-depth interviews. Managed and transcribed transcripts to further illuminate the sociocultural and family context of HIV positive Chinese women and family members.
